P and C Meeting

Principal's Report

I would like to pay my respect to the Aboriginal People of Australia and related island communities and the Torres Strait Islanders as the First Peoples of this Country. I acknowledge the respective Traditional Owners on whose countries we live and work.

I hope that everyone enjoyed their donuts!

I'd like to acknowledge Tristan and Stuart for their work while I was away. It was nice to come back with no additional workload.

School Hall

The prospective contractors for the new hall construction are meeting on site next Tuesday! Very exciting!

Last month, I mentioned that we had a Police Incident outside the Senior Campus.

The students involved have been removed from the College community. South East Region are working with the family to find them a new school.

Other Events

- Year 7 are off on camp this week - doing their best at the Kokoda Challenge.
- We prepare for our first Awards Night, back at Sleeman, without Brad French in control!

Performance

- We are awaiting our NAPLAN results, any day now
- Our Attendance Rate is 84.6%

Teaching

- We have started the process of preparing for 2023 units, with a focus on making everything a little bit more exciting, not flashy, just a little more engaging
- We recently underwent a massive VET audit - our work was very thorough and considered 'compliant'
- With this workload in mind, we are looking to outsource all of our VET from 2024, transitioning across in 2023

Capability

- We started our Daymap training last week - with a lot more to follow
- A number of the team attended Inquiry based learning - Inquiry-based learning is an education approach that focuses on investigation and problem-solving. Inquiry-based learning is different from traditional approaches because it reverses the order of learning. Instead of presenting information, or 'the answer', up-front, teachers start with a range of scenarios, questions and problems for students to navigate; something that happens in the high-capacity classes. A few teachers on the Junior Campus have been watching high capacity and wanting to replicate it in their classes.

Partners

- Adam Voigt this week
- DayMap - massive amount of work ahead
- Inquiry based learning - visiting Foxwell Road State School (Upper Coomera)

Wellbeing

- Staffing seems to be easing
- Non-teaching is difficult at the moment, I don't think we've have a full Admin Officer team in months. Louise hasn't sat outside my office for more than two days this term.

Inclusion

- We started our conversations last week around the new funding model for students that require adjustments. The funding model now covers students that need ongoing adjustments (not just the verified disabilities that the department used to recognise). It is a big win for students with mental health, ADHD, dyslexia for example. Some students currently entitled to funding may not be eligible under the new model, but the students that we have forecasted are currently high functioning and work well with the basic differentiation of the classroom teacher anyway. It will roll out throughout 2023 and 2024.
